Indore is a beautiful city situated in the heart of India: Madhya Pradesh. It has been ranked as India's cleanest city five years in a row as per the Swachh Survekshan from the years 2017-2021. Indore has also been declared as India's first "water-plus" city in 2021. It became the only Indian city to be selected for International Clean Air Catalyst Programme. Indore with adjacent industrial towns of Dewas and Pithampur is also known as the commercial center for goods and services in the state. A cultural melting pot, Indore is known for the 7-story Rajwada Palace and the Lal Baag Palace which date back to time of Holkar dynasty. Known for its lip-smacking street food, Indore has two major street food places: Chappan Dukan, the smart street food lane and the night Sarafa Bazaar. Well connected by Air and Rail networks, Indore offers luxurious stays for guests with many hotels offering modern amenities in the heart of city.

Daly College of Business Management (DCBM) was inceptioned in 2018 with a deep commitment towards excellence. With a progressively competitive curriculum in its armor, topped with well-planned pedagogy with learning modalities, it offers a safe and positive environment to the management aspirants. DCBM is offering its BBA Programme (BBA-Strategic Finance and BBA-Strategic Marketing) in affiliation with Devi Ahilya University, Indore. Following the rich legacy, culture, and tradition of Daly College, DCBM is emerging as the pioneer institution in offering transformative educational experience, a curriculum enriched with globally recognized value-added certifications such as US CMA, CDMP, Business Analytics and NEN that make the students future ready. Awarded as the Best Emerging Management College of Central India, by Asia Education Research, DCBM has a vision to set an unparalleled standard for management education by channelizing the transformative power of the management discipline in a righteous manner for the purpose of creating socially conscious entrepreneurs and managers. With the successful mission "to nurture and up-skill management aspirants and future leaders by being a contextually-relevant business school with due adherence to holistic development and blended learning, complemented with the intellectual, social and personal transformation", DCBM is inching towards the zenith in the education industry.

Espousal of the latest technologies and innovations now has become a vital factor for everyone to achieve growth and success. Digitalization and Innovation promotes globalization that eventually has a profound impact on the methodology of disruptive thinking of an organization in terms of people, policies, principles, processes, philosophies, programs and procedures. Consequently, businesses are looking forward to adopt innovative and unique ways for the success of business. Along with manufacturing sector, service sector and start-ups too is emerging triumphant with the help of digitalization. The educational field that manifests adaptability and dynamism as its core characteristics can include digitalization and innovation in teaching-learning pedagogy to carve a successful future. Digitalization provides many opportunities for growth and development, however it also comes with numerous challenges and risks. That is why it becomes imperative for practitioners and policymakers to take a deep research in order to cope up with future contingencies. This International Conference aims to discuss the emerging concepts of innovation and digitalization in various areas and to present the opportunity for the professionals, academicians, research scholars and students to showcase their original research works and experiences in their respective fields. The conference will provide a platform for discussion to the policymakers and other stakeholders to converse about the latest technologies and innovations in the different business areas.
